Computer Science Engineer

## CAREER OBJECTIVE

Looking for a challenging role in a reputable organization to utilize my technical, database, and management skills for the growth of the organization as well as to enhance my knowledge about new and emerging trends in the IT sector.

## EDUCATION

Academic Status	Year	University	Percentage
PG-e-DBDA	2021	IACSD, Pune	pursuing
B.E(CSE)	2020	S.G.B.A.U, Amravati	85.78
Diploma(CSE)	2016	MSBTE	55.87
SSC	2011	Maharashtra State Board, Amravati	75.64

## PROJECTS

### ❖ Malware Analysis and Detection Using Machine Learning

Technology Used:- Python, Machine Learning

Description:- We propose an optimal solution in which one can employ different machine learning algorithms to successfully distinguish between the legitimate files and the malware files and presented the ideas behind our solution by working firstly on Exploratory Data Analysis (EDA) on the Dataset, and secondly, we applied the Different kinds of Algorithms and built a malware classifier to find the optimal solution for the problem and tried to obtain the Maximum Accuracy by doing it.

## TECHNICAL SKILLS

Python

Machine Learning

Linux

Power BI

Cloud Computing

SQL

ReactJS

C

C++

JAVA

## ACHIEVEMENTS

National Service Scheme  
2017

Group Dance  
Techelons 2018

Discipline Committee  
Techelons 2019

## EXTRA-CURRICULAR

30 Days Internship on Web  
Development

Certified course on Asp.Net

#### ❖ Finance Services and Chatbot

Technology Used:- HTML, CSS, Bootstrap, JS, PHP, MySql

Description:- In this project, we provide mid or long-term period loans from the best finance company to full fill customer needs. The main aim of finance service is to access the financial needs of an enterprise and people then finding of a suitable source of rising them the so should we can separate with the needs of the business. A chatbot is a digital assistant that uses voice recognition and speech synthesis to provide aid to users through phones and voice recognition applications.

#### NATIONALITY

Indian
